OBJECTIVE

I would describe myself as an ever-learning developer passionate about creating impactful applications through clean, efficient code. I am eager to apply my technical skills and problem-solving abilities in a collaborative team environment where I can grow as a developer while contributing to meaningful projects.

PROJECT EXPERIENCE

Crystal Ball Taxes

Backend Developer | Introduction to Software Development

- Built an Android tax management application using Java and Android Studio.
- Designed and implemented a relational SQLite database with CRUD operations.
- Coordinated with frontend specialist to develop robust data handling mechanisms that met user requirements.

The Grave Wave

Solo Developer | Game Programming Final Project

- Independently developed a 2D action game inspired by “Vampire Survivors” using Godot and GDScript
- Implemented custom data structures to efficiently manage game states
- Applied software engineering principles to create maintainable, modular code architecture.

WORK EXPERIENCE

TJ Maxx Sales Associate

Statesboro, GA | Dec 2023- present

- Developed an understanding of the point-of-sales systems user experience.
- Developed strong communication skills through attentive customer service.

Chick-Fil-A Back of House Supervisor

Statesboro, GA | May 2022 - Aug 2023

- Led a team of 10 employees in a fast-paced environment, developing leadership and team coordination skills valuable in collaborative development settings.
- Troubleshoot operational challenges including equipment malfunctions, demonstrating problem-solving abilities
- Implemented process optimizations improving operational efficiency.
